## Great Offensive Will Not Stop Unless Armistice is Signed at Once—Revolts Break Out in More Enemy Cities

(By Associated Press.)  
Washington, November 8.—The German armistice delegation entered into conference with Gen. Foch at nine o'clock this morning, French time, the state officially announced. It is also announced that if it is found that the delegates must refer the terms to Berlin, they will be given 72 hours of time that decision is reached to answer.

**DELEGATES ENTERED FRENCH LINES LAST NIGHT.**  
Paris, November 8.—The German delegates, which came to the French lines last night to receive the allied armistice terms from Gen. Foch, proceeded this morning to the meeting place designated by Gen. Foch, the delegates, bearing white flags, reached left wing of Gen. Debény's line at 10 o'clock last night. They arrived at a place indicated by Gen. Foch within the French lines about 2 o'clock and passed the remainder of the night there.

**HUNS MUST ACCEPT TERMS OR WAR GOES ON.**  
Washington, November 8.—An official dispatch from France today announced the fact that Gen. Foch is empowered only to deliver the armistice to the Germans and to receive their acceptance and that the peace negotiations are not the business of the military commanders. Any suspension of hostilities before the armistice is signed, even on philanthropic grounds, is out of the question.

German effort at compromise or evasion will be tolerated. They believe what the allies and the United States offer them and lay down their arms there will be no interruption of the great offensive which is destroying German military machine.

It is believed everywhere that the Germans are beaten and that their surrender cannot long be delayed. Word that the drastic armistice conditions are being awaited with calm and confidence.

Meanwhile premature celebrations are decried with their resultant interruption of industry and business. The President has taken cognizance of this by authorizing Secretary Lansing to say that no news is being withheld promising an announcement as soon as the government is informed that armistice is signed.

300,000 Men Ordered To Army Camps From New Draft, May Never Go—Madison Asked For 212.  
Washington, Nov. 8.—Gen. Crowder today called into conference his office heads to discuss the possibility of a suspension of the November draft calls under which 300,000 men have been ordered to army camps.

It is known that Gen. Crowder's advisers will warmly advocate the withdrawal of the November call, at least if the Germans accept the armistice terms before the movement to camps begins. The feeling is growing that no more men will be needed.

**212 MEN FROM MADISON**  
A total of 14,125 men were called from Kentucky in the November draft call just issued from Frankfurt by Major Rhodes. Of these 2,577 are of the new draft who registered September 12th. In the event that the November call is held up, as is indicated, these men will not have to go to camp. It is expected that authoritative announcement will soon be made of the War Department's further plans.

**COUNCIL GIVES \$100 TO ASSOCIATED CHARITIES**  
City Fathers Endorse Appointment of Miss Roberts As Visiting Nurse—Regular Monthly Meeting  
Richmond's city council went on record in favor of the union of the various charitable agencies of the city at its regular monthly meeting last night, when it voted \$100 to assist in the work of the Associated Charities. The members were given some valuable suggestions by Rev. O. Olin Green, of the Baptist church, as to the efficiency of a union of various agencies and the economy which can be obtained in the distribution of the city's charities during the winter.

The City Fathers were only in session about an hour. Mayor Evans has the whole administration working at top speed, and the councilmen are cutting out a lot of the useless arguments and discussions that often enliven their proceedings and attending strictly to business.

Dr. Green led in prayer when Mayor Evans called the council to order at 7 o'clock. All of the members were in their seats except Councilmen O'Neill and Terrill, who came in a few minutes later.

The Mayor reported that he had been able to secure two car loads of coal for the use of the city through the State Fuel Administration.

Councilman Merason reported that he had made a partial list of pavements that needed repairing. His motion, seconded by Councilman Golden, that the owners be notified to repair them carried unanimously.

Upon the suggestion of the Mayor and after discussion of the economy to be secured, Mayor Evans appointed a committee composed of Councilmen Merason and Allman, to investigate the cost of buying a truck to haul rock for the city.

The monthly report of Chief of Police Claude Devore showed collections of \$515.80 during October. As usual the clever and efficient Chief of Police had his check for the amount in full attached to his report.

Police Judge Murray Smith's report showed that he imposed a total of \$625 in his court during October. Judge Smith is moving a tenement house on the corner of Third and Main streets.

City Collector Jesse Dykes collected during October the sum of \$38,807.66, which was distributed as follows:  
General fund \$23,634.78  
School fund 11,531.40  
Sinking fund 3,641.48  
Total \$38,807.66

Street Commissioner J. H. Allman reported that \$529.38 had been spent during October for labor and teams on the streets.

The council voted unanimously to have a light placed on Tate's Creek avenue near the residence of Judge E. C. Million.

It was also voted to place another light on Boggs Lane for the benefit of the citizens there, upon suggestion of Mayor Evans.

The bill of Jailer Burgess for handling city prisoners amounting to \$163.80 for October was before the city council. It was pronounced high but not excessive in view of the amount of business the city's efficient police officials and police court are doing.

Upon motion of Councilman O'Neill that the city appropriate \$100 for the Associated Charities, Mayor Evans was endorsed by the members for his employment, with County Judge Price of Miss Eva Roberts to act as visiting nurse during the flu epidemic.

Dr. Green, who was an interested listener, was given the floor and talked to the members on the advantage of having a permanent visiting nurse or worker. He told of the great good that can be done not only for charitable cases, but to promote the general welfare of the city and community. He said that a great deal of money could be saved the city by a union of the various churches, the city and other organizations in establishing a systematic plan for handling charity cases and the employment of a permanent charity worker. Dr. Green gave the councilmen some sound ideas on the subject and his remarks were listened to attentively by the members and officials. He thought it would be a splendid idea to at least engage a charity worker all during the winter. He strongly commended the council for taking a step in the right direction by making the appropriation it had for the Associated Charities.

Councilman Terrill seconded the motion for the appropriation and it was carried unanimously. The council will also vote to pay the city's half of a desk. After ordering monthly accounts City Collector Dykes presented a paid, the council adjourned.

**MINISTERS MAKE A STRONG APPEAL**  
Urge Whole-Hearted and Generous Support in Madsons of Coming War Work Campaign.  
A large majority of the ministers of Madison county have issued the following appeal for support of the War Work Campaign, which begins next Monday, which is timely and to the point and self-explanatory:

When the Roman Catholic Belgian, the agnostic or Catholic Frenchmen, and Italians, with the British forces, put up the stiff fight that checked the advance of the hordes of the Hun, and held them at bay, suffering fearful losses, hammered and pounded for two long years by shot and shell, by machine gun and shrapnel, harnessed by aeroplane and submarine, holding a force many times their own number in check till America could rally to the defense of humanity's cause, we cheered their pluck, admired their heroism—we did not ask what creed they held, but rendered full homage to their bravery.

We cannot now, in ministry to men on the seas, in the camps, or in the blood-drenched trenches, discriminate and choose, by drawing the lines of creed or faith, whom we shall serve.

We must make the line of our administration as broad as the line of our defense, we must minister with all and to all. With the Jew, our brother of the Old Testament faith, with the Roman Catholic who with us has the love of mankind at heart; we must work together with all who still work with us in the great service of ministering to the social, physical, moral, and spiritual needs of our men in military service.

We ministers of Madison county urge all within our circle of influence to contribute freely, largely, and wholeheartedly to the appeal made for funds to carry on the allied services of the seven organizations, working for the welfare of the men in barracks, in camp, at sea, and in the trenches.

We are assured upon foundation of the gigantic assumed, as the clouds will be wisely used.

Months of weary camp life must be endured by our men before they set foot on their native soil.

Vast educational schemes are proposed for our armies to occupy our men in otherwise idle days, that they may return better fitted by education and added training for home life and citizenship, rather than come back demoralized by dissipation, by idleness, by gambling, and the vices of camp life.

For this training thousands of teachers must be sent to the camps to carry on this work, a work that is planned on a colossal scale. Large funds will be needed to carry out the great designs of large minded men. We must be ready with millions.

A period of demobilization will be a period of the greatest demoralization unless measures to counteract this tendency are made possible by the support of the people at home.
